Introduction

When developing your safeguarding adults policy, it must comply with the following:

- Southend, Essex and Thurrock Safeguarding Adult Guidelines
- Care Act 2014
- Care and Support Statutory Guidance
- Mental Capacity Act (MCA) 2005
- SET MCA Policy and Guidance

Policy Statement

It is our policy to comply fully with the safeguarding requirements of the Care Act 2014 as expressed in the statutory Care and Support Guidance, and any revisions that may be made to the guidance. This document sets out our approach to doing so.

Aims

To include:

- Ensuring that the wellbeing of adults is paramount at all times.
- Maximising people's choice, control and inclusion and protecting their human rights.
- Working in partnership with others in order to safeguard adults.
- Ensuring safe and effective working practices are in place.
- Supporting staff within the organisation.

Scope

This policy applies to anyone who is employed by the organisation or who has a contractual relationship with the organisation.

For example, permanent, seconded, temporary staff, contractors or volunteers.

The safeguarding duties apply to an adult who:

(A) has needs for care and support (whether or not the authority is meeting any of those needs),
(B) is experiencing, or is at risk of, abuse or neglect, and
(C) as a result of those needs is unable to protect himself or herself against the abuse or neglect or the risk of it.

Safeguarding means protecting an adult's right to live in safety, free from abuse and neglect, while at the same time making sure that the adult's wellbeing is promoted including, where appropriate, having regard to their views, wishes, feelings and beliefs in deciding on any action.

The SET Learning and Development Framework may support the development of this section.

Support for people who are alleged to have caused harm

To include:

- Everyone should be aware that abuse is a serious matter that can lead to a criminal conviction and the police may be informed.
- A risk assessment should be completed to ascertain the level of risk the person may pose to other people and should include whether it is safe for them to continue in their role or any other role within the organisation whilst the investigation is undertaken.
- Checks should be undertaken to see whether the staff member was provided with the right training, supervision and support (whilst this doesn't condone the abuse, prevention strategies may reduce the risk of it reoccurring).

The following should be considered:

- Organisations Disciplinary Policy.
- Disclosure and Barring Service.
- Professional body such as the Health and Care Professional Council or General Medical Council, relevant commissioners or Care Quality Commission.
- LADO process.

Support for people who are alleged to have caused harm

Person also has care and support needs

- What support and action may help them not to abuse others, this could include a review.
- Where possible there should be a co-ordinated approach and partnership working.
- Consideration should be given to the balance of power as part of the reporting process.
- Where both parties are receiving a service, staff should discuss cases and consider joint assessment and support plans where appropriate.
